ABOUT NAYANTARA

Nayantara Nag is a Partner in Energy, Infrastructure and Natural Resources practice in Trilegal. She has over 15 years experience in representing the government, lenders, sponsors, developers and contractors on energy and infrastructure projects across various sectors such as power, oil and gas, transport, social infrastructure, water, waste management, EVs, and smart cities.

Nayantara advises on policy matters, structuring complex PPP projects and regulatory framework for project development; conducting legal reviews, bankability analysis and due diligence; conducting bid processes; drafting, review and negotiation of bid documents, concession agreements, project development contracts, power purchase agreements, and off-take agreements. While Nayantara has advised clients on high-profile M&A and joint venture transactions in the energy and infrastructure space, she has an equally enviable track record of advising on greenfield project development and on various innovative and first of its kind decarbonization and energy efficiency projects.
